

# BACCUS PRESSKIT

# BIOGRAPHY

After a few years of production, Baccus returns to his first love of Minimal House with a sunny vibe and a resolutely clubby sound! Boss of Groovytude records, he recently released a banger with UK influences.

His remixes confirm his ambition with collaborations such as Oden & Fatzo, Black Loops or Leo Pol.

On the stage of the capital's biggest clubs such as the Rex Club, Café Barge, Faust but also festivals such as Marvellous Island, Baccus shared the DJ booth with DJ Steaw, Traumer and Franck Roger.

Baccus is an artist well anchored in the French house landscape and already well beyond our borders. He never disappoints and has only one obsession : To share his love in his productions and on stage; with a very singular energy, that you can find on his last remix for Folamour where he sings as on all his original tracks.
