BIOGRAPHY

DJ Steaw is a French **DJ** and **producer** from the West of France who toured around Europe and the rest of the world, playing his tracks marked by singular basslines and crowd-pleasing soul sounds.

Listeners can recognize the Steaw imprint in his work: the improvisational spirit of jazz and the unpredictable rhythm of hip-hop illuminate his **house** tracks. He is also the co-founder of **Rutilance Recordings** and the founder of House Puff Records and Steaward.

Real connoisseur of the music industry, he boasts **about 15 years' experience** on the international electronic scene, from Berlin's Tresor and London's Fabric to Amsterdam's Shelter and France's top spots.

The talented hyperactive artist emblematic of our scene is ready to reach new scales, helped by a high frequency of high-quality releases, some on iconic labels and tout in Australia and America.
