

FASME

SHORT BIO

A LIVE PHENOMENON !

His energy on the stage marked the whole French scene these last years. His music in constant evolution between Electro, Acid, Braindance and Synth-Wave is defined by a subtle and melancholic melody, supported by a great rhythmic from this drummer.

Letting nobody indifferent, this artist as joyful as sweet rapidly catch the eyes of the crew Live Electronic Feeling, then Astropolis, Paco Tyson or Dehors Brut / Concrete before joining the Sarcus Festival as a resident and now a member of the Chevy roster.

Talking releases, he dropped his first EP on the label Nocta Numerica in April 2020, a true combination of his last sound exploration. Expect a lot of incredible sound coming from this very special artist.

You can also catch him on a DJ set under the alias « Yo Homies »
