DJ Set & Hybrid Set

BIOGRAPHY

From a very young age, Théo was immersed in the world of music with two musician parents.

In 2017, he started his career as a **DJ, producer** and **musician** under the alias THEOS before moving to London at the end of 2019 to study sound engineering and fully dedicate himself to music at only 17 years old.

On the production side, he draws inspiration from a variety of musical genres that shaped his childhood, ranging from Hip-Hop, Jazz, and Funk to ultimately embracing **house music**. In 2023, his musical career intensified with a third EP on the Shall Not Fade label, Kerri Chandler inviting him to improvise on the piano at the PIV Festival and a first EP on the legendary Defected Records in October in collaboration with Oden&Fatz, just a few days before he blew out his 22nd birthday candle.

As THEOS gained more and more recognition. He found himself playing worldwide with his **hybrid set**, a perfect blend of his DJ and pianist skills, and developing new musical projects with Astels, his new duo influenced by pop sounds and already appreciated by loyal listeners in less than a year.
