DJ Set & Live

BIOGRAPHY

Born and raised in Corsica, he is one of the spearheads of the new generation from the Isle of Beauty, characterized by dark and bewitching rave sounds. His **productions**, with their diverse inspirations between the present and the past, gives us a glimpse of a particular mystical side, resulting in a recognizable trademark.

After several successful releases on the IDRA, Griffé, Positive Future, Shin'uchū, Cartels records under P.O and Solär Sound System, he founded his Festival Era Ora and his eponymous label, always with the same dancefloor oriented guideline.

His highly acclaimed **live** performances have confirmed his place as one of the artists to watch in the years to come. A true Swiss Army knife, he is also a **DJ** and **selector** in addition to his producer's hat. He has also recently launched his long-meditated Isula Science label.
