# BIOGRAPHY

Lover of electronic music and inexhaustible **digger**, Loryn is a collector whose sensitivity is reflected in her records with their obscure and elegant sounds.

Self-taught, it is through passion that she has refined her technique and her style to assert herself as an artist to follow on the underground scene. With a vinyl-oriented project that oscillates between **breaks, new wave and electro**, she managed to capture the attention of Parisian actors and audiences while sharing the stage with big names such as Laurine & Cecilio, Alec Falconer or Ceephax Acid Crew in emblematic clubs such as Rex Club and the Machine du moulin rouge.

Alongside the light of the stage, it's in the shadows that she has forged the final piece of the puzzle, transcribing her emotion and her work through her own **productions**. After single releases on VA d'Itinéraire Bis and VA Chevy Records, she channeled her creativity and energy into building her first EP, *Fury Horse*, which she released on her own Karrusel label.

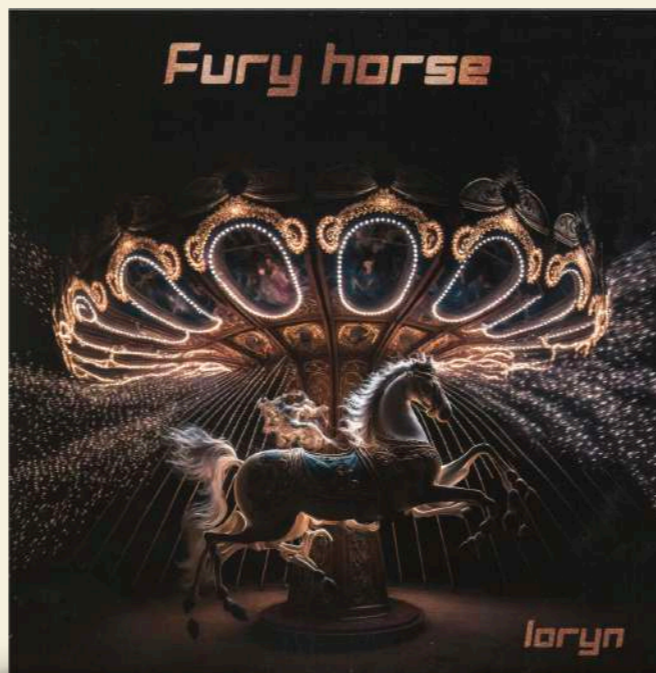

As a young project with a bright future, Loryn brings a breath of fresh air to the agency and we are more than happy to discover her full potential alongside the other artists of the Chevy Agency family.
