DJ Set

BIOGRAPHY

Philou is a Paris-based rising DJ and producer whose infectious energy and sharply curated sets have positioned her as one of the most exciting new voices in electronic music. Born in Paris and deeply shaped by her years in Brazil – specifically the pulse of São Paulo – she has crafted a distinctive sound that seamlessly fuses house, acid house, and indie dance with vibrant Latin-infused grooves.

Ancient resident at the iconic **Silencio Paris** and founder of her own event series UNTITLED, Philou has firmly established her presence on both the French and international scenes. Her multicultural background fuels a musical identity that feels both contemporary and timeless, moving effortlessly from melodic cuts to high-energy club weapons.

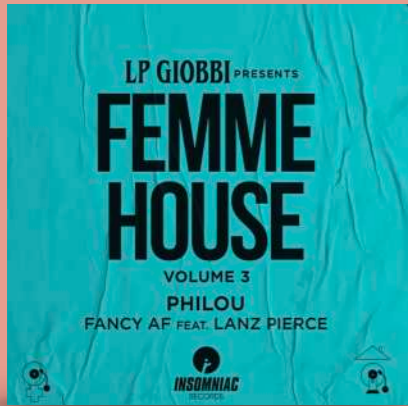

Her talent in the studio has earned her releases on highly respected labels, including Yes Yes Yes / Defected (LP Giobbi's imprint), Around Midnight (by Chambord), Easier Said, REALM Records, and Insomniac.

On stage, Philou's global club sensibility has taken her to major festivals such as **Tomorrowland Winter, Extrema, Mayan Warrior, and City of Gods**. From supporting titans like **Paul Kalkbrenner** to performing at legendary venues like **Koko (London), Sisyphos (Berlin), Brooklyn Storehouse, and The Gardens of Babylon**, Philou continues to affirm her status as one of the most promising artists of her generation.
